# KONJAC

Suitable for all skin types

Konjac contains a variety of amino acids, minerals and rich vitamins, it is edible and medicinal, contains natural moisturizing factor glucomannan.

Konjac contains natural antibiotics to form antibacterial protective film on skin surface.

Pure natural plant fiber, no pigment, no preservatives, no chemical additives, biodegradable, eco-friendly.

Clean, exfoliate, massage and moisturizing, four functions in one, weak acid, Q-elastic and well-lubricated, daily use will not hurt the skin.

3D porous structure, deep cleaning skin, rich foam, fine bubbles bring SPA enjoyment.

## KONJAC SPONGE:

1 Konjac Plants

2 Konjac Roots

3 Konjac Series Productions

## PRODUCTION PROCESS:

Step.1 MIXING

Step.2 FILLING

Step.3 OXIDISED

Step.4 STEAMING

Step.5 FREEZING

Step.6 CLEANSING

Step.7 DRYING

Step.8 PACKING

## PRODUCT FEATURE:

**Pure Ingredients:** 100% natural konjac plant fiber, glucomannan  $\geq$  96%, no chemical additive, no pigment, no fragrance.

**Good Flexibility:** 3D cellular fiber mesh structure, stable internal structure, strong toughness, pressure resistance test  $\geq$  2000 times, soft and durable.

**Strong Absorption:** good water absorption, it can absorb 5 times water of its own weight and oil & dirt on skin surface, soft, skin-friendly, and gentle cleansing.

**Weak Acidic pH:** pH 6.5-6.8 of konjac sponge, and 4.5-6.5 of healthy skin. The normal range of pH can make the skin in the best nutrition absorption condition.

**Health and Eco-friendly:** biodegradable, buried in soil after 3 months of natural degradation rate  $\geq$  96%.

## HOW TO USE:

1.3-5 minutes in warm water. 2. Massage your face/body with or without soap. 3. Rinse it. 4. Dry it in a cool place.

After use, it is better to put konjac sponge in the refrigerator for next use.

# KONJAC SPONGE—ADDITIVES

 <u>Pure</u> Deep cleansing, Gently exfoliating.	 <u>Bamboo Charcoal</u> Adsorption and control oil. Eliminate black and exfoliating.	 <u>Walnut shell</u> Exfoliating, hydrating and moisturizing.
 <u>French Red Clay</u> Removing toxins and bacteriostat.	 <u>French Pink Clay</u> Removing toxins and bacteriostat.	 <u>French Green Clay</u> Removing toxins and bacteriostat.
 <u>Green Tea</u> Firming and smoothing. Antibacterial and antioxidant effect. Radiation protection.	 <u>Collagen</u> Anti-wrinkle and repair cell regeneration. Recover the elastic.	 <u>Aloe</u> Nourishing and moisturizing. Relieves discomfort and antianaphylaxis.
 <u>Lemon</u> Brightening and whitening. Reduce the pigmentation.	 <u>Rose</u> Detoxifying, beautifying and nourishing skin.	 <u>Lavender</u> Elieve and calm. Accelerate cell regeneration.
 <u>Blueberry</u> Nourishing and whitening. Repair and antioxidant.	 <u>Turmeric</u> Anti-inflammation, anti-oxygen, firming and smoothing.	 <u>Moringa seed</u> Natural moisturizing, deeply cleansing.
 <u>Seaweed</u> Enhance metabolism and skin elasticity.	 <u>Coffee</u> Firming, anti-aging and regularize skin health.	 <u>Loess</u> Deep cleansing. Gently exfoliation.

## KONJAC SPONGE—STATES

The Content	Dry State	Wet State	Freezing Dry State
<b>Forming process</b>	The product rinse after dehydration, hang a line into the room with dry, after 48 hours, around 50 °C temperature, naturally forming the shape of the sponge, such as inside the mould.	Dry sponge put into the purified water after soaking, add preservatives PE and then soaking 15 hours, sealed into the bag.	Frozen, sponge in low temperature and vacuum conditions make ice to sublimate directly out of the water in sponge. Sublimation of ice crystals at the same time for water vapour to escape, the porous structure can be uniform distribution of konjac sponge.
<b>Moisture content</b>	below 8%	5 times of dry sponge	below 10%
<b>Shelf time</b>	5 years Sealing requirement is relatively low	2 years Sealed strictly	5 years Sealed strictly
<b>Advantage</b>	A long shelf time The freight cost the lowest, save a longer time	Good appearance, soft Easy to identify the using purpose.	A long shelf life Recovery properties of water are outstanding. Freeze-drying product volume, shape basically remain unchanged similar as wet sponge, pore diameter is natural and stretched, without shrinkage phenomenon.
<b>Disadvantage</b>	Product shrinkage after drying, pore diameter is irregular, drying shrinkage will affect product appearance, not very beautiful; recovery properties of water are poor.	Must add preservatives and keep the high water content and high transport costs.	Easy to moisture absorption, must be sealed packaging. Easy deformation under the external force, do not squeeze.
<b>Packing</b>	Storage in bulk and using sealing container, prevent to be affected with damp.	Must be a single seal packing in OPP bag.	Cardboard boxes sealed packaging, coat or PVC/EVA material such as plastic box.

## KONJAC TOWEL

Natural and safe for the whole family

- The production process is the same as konjac sponge
- Frozen-dry can be made into various shapes
- Wet size 170 \* 170 \* 3 mm / 25g

# KONJAC JELLY SOAP

Gently clean dirt and excess oil from pores

Extract natural plant essence, oil control and moisturizing

Soap-free, weak acid, delicate and gentle, not irritating

Less foaming, easy to rinse, refreshing and not slippery

## Glucomannan

a pure plant-derived active substance, which can absorb water molecules 200 times than its own volume. It has excellent biocompatibility and film-forming. It is a natural barrier for the skin to resist external invasion.

## Tamarind polysaccharide

excellent natural plant-derived skin care products, rich in amino acids and minerals, penetrate pores, clean oil and dirt, does not damage sebum membrane, firmly lock skin moisture and moisturize skin.

Nourishing and  
whitening.  
Repair and  
antioxidant.

### Peppermint

Control oil and  
refreshing.  
Anti-inflammatory  
and calm skin.

### Rose

Detoxifying,  
beautifying  
and nourishing skin.

### Aloe

Nourishing and  
Moisturizing.  
Relieves discomfort  
and antianaphylaxis.

### Collagen

Anti-wrinkle and  
repair cell  
regeneration.  
Recover the elastic.

### Pine Powder

Whitening  
andbrighting.  
Refreshing and  
smoothing.

### Green Tea

Firming and smoothing.  
Antibacterial and  
antioxidant effect.  
Radiation protection.

### French Red Clay

Removing toxins and  
bacteriostat.

### Loess

Deep cleansing.  
Gently exfoliation.

### Green Juice

Detoxifying,  
beautifying  
and nourishing  
skin.

### Lemon

Brighting and  
Whitening.  
Reduce the  
pigmentation.

### French Pink Clay

Removing toxins and  
bacteriostat.

# KONJAC BASE MATERIALS

Patent No.: ZL 2109 1 0565664.5

**Safety Ingredients:** 100% natural konjac plant fiber, no chemical additive, no pigment, no perfume, suitable for all skin types, sensitive skin can use.

**Good Adhesion:** 0.2mm microfiber film, jelly gel texture, soft touch, strong air permeability, forming light negative pressure on the skin surface, skin-friendly.

**Strong Absorptivity:** 3D cellular fiber mesh structure, essence absorptivity is 3 times of its own weight, essence transport capacity is 2 times of ordinary non-woven film.

**Solid moisturizing:** Glucomannan in the film  $\geq 96\%$ , and the solid moisturizing agent on the skin surface helps to absorb moisture and actively lock-water.

**Weak Acidic:** pH 6.5-7.0 fit healthy skin, in the range of normal pH value, make the skin in the best condition of nutrition absorption.

**Health and Eco-friend:** biodegradable, buried in the earth for 3 months, natural degradation rate  $\geq 96\%$ .

Microscopically,  
40 magnification,  
3D fiber structure

Detoxifying, beautifying and nourishing skin.

### Lemon

Brightening and Whitening. Reduce the pigmentation.

### Lavender

Relieve and calm. Accelerate cell regeneration.

### Aloe

Nourishing and Moisturizing. Relieves discomfort and antianaphylaxis.

This product has been qualified against Microbial Contamination BP B/EP & USP <61/62>  
ISO 9001 · ISO 22716 & GMP · BSCI  
No coloring · No additives · Bio-degradable · Eco-friendly

## LIPOPEPTIDE ACETATE ANTI AGING AND TIGHTENING DECOLLETE MASK

3 TYPES STAR LEVEL INGREDIENT FORMULA

### Hyaluronic acid:

Hyaluronic acid formula, replenish moisture for the skin, repair the damaged skin barrier in time, and make the skin delicate and moisturized.

### Niacinamide:

Niacinamide formula, fights skin inflammation, inhibits melanin deposition, and makes the skin bright and transparent.

### Ipopeptide Acetate:

Ipopeptide acetate formula, improves the metabolism of skin cells, diminishes fine lines, and makes the skin smooth and firm.

## V-SHAPED ARC CUT

Apply below the clavicle line, fits the chest skin area.

Wide top and narrow bottom, pulling the skin texture, pull lifting and firming.

Moderate size, convenient for daily use.

# Natural and Safe, Family Share

Loving care every inch of the skin

## KONJAC WIPE

With unique network texture, 360° gently exfoliating and cleansing your skin. Green+ Eco-friendly+ Bio-degradable.

Effectively removing the impurities, leading into skin deeply and moisturizing quickly.

No coloring, no alcohol, no stimulation. light and comfortable, Baby under 3 years and sensitive skin can use safely.

SQUARE

SIZE: 17\*17\*0.2 CM KW 170

CIRCLE

SIZE: 16.5\*16.5\*0.1 CM KW 060

RECTANGLE

SIZE: 8.5\*5.8\*0.15 CM KW 085

RECTANGLE

SIZE: 17\*11\*0.2 CM KW 110

**Pure ingredients:** highly purified 100% konjac plant fiber and multiple reverse osmosis purify water process of natural purify water, no chemical additive, no pigment, no pigment.

**Soft and comfortable:** uniform and fine pores, light and breathable, strong water absorption, flexible and elastic, soft and comfortable to touch.

**Cleansing and moisturizing:** water content is 5 times of its own weight, moistening and cleansing without hurting the skin. More than 96% glucomannan can keep the skin moisturizing for a long time without dryness.

**Weak acidic pH:** close to healthy skin pH, protect skin sebum film.

**Eco-friendly and safety:** biodegradable, nature and non-stimulation, suitable for all skin types, sensitive and baby can be used.

## KONJAC WIPE FOR BABY

Natural without stimulation, without additives. Deep moisturizing factor -Glucomannan- like mammy's care of a baby tender skin; Replace towel completely.

## KONJAC WIPE FOR TRAVELLING

Deep cleansing by it, or matching the cleanser with your skin. Easy to carry on. Be recycled after using, best for biodegradable, green and environmental protection.

## KONJAC WIPE FOR REMOVING MAKEUP

Rich in Sodium Hyaluronate, and variety of natural plant extracts, such as Portulaca Oleracea, Hamamelis Virginiana and Calendula Officinalis etc. Removing makeup completely and moisturizing without residues and no tight. One wipe dual-used: after removing makeup, you can cleanse your face with the same konjac wipe. At the same time, repairing damaged skin caused by the cosmetics.
